Listen To Our Hearts by: Geoff Moore

-Verse 1-

**FILL**                    **C**                    **FILL**                    **Em7**  
How do you explain, how do you describe

**FILL**                    **C**  
A love that goes from east to west

**D**                    **Dsus**                    **G**                    **Gsus G**  
And runs as deep as it is wide

**FILL**                    **C**                    **FILL**                    **Em7**  
You know all our hopes, You know all our fears

**FILL**                    **C**                    **D**  
Words cannot express the love we feel

**Dsus**                    **G**                    **Gsus G**  
But we long for you to hear

**-Chorus-**                    **C**                    **Em7**  
So listen to our hearts, hear our spirits sing

**C**                    **D**  
A song of praise that flows

**Dsus**                    **G**                    **Gsus G**  
From those you have redeemed

**C**  
We will use the words we know

**D**                    **Dsus**                    **G**                    **F#/D**                    **Em**  
To tell you what an awesome God You are

**C**                    **D**  
Words are not enough to tell You of our love

**Dsus**                    **G**                    **Gsus G**  
So listen to our hearts

-Verse 2-

**FILL**                    **C**                    **FILL**                    **Em7**  
If words could fall like rain from these lips of mine

**FILL**                    **C**  
And if I had a thousand years

**D**                    **Dsus**                    **G**                    **Gsus G**  
I would still run out of time

**FILL**                    **C**                    **FILL**                    **Em7**  
But if you listen to my heart, Every beat would say

**FILL**                    **C**                    **D**  
Thank you for the life, thank you for the truth

**Dsus**                    **G**                    **Gsus G**

Thank you for the way

**-Chorus-**

GREATER
